INSURANCE

INSURANCE REQUIREMENTS

If you already have compliant insurance, please forward your proof of insurance to forms@farmshow.org.

If you do not have coverage, it can easily be purchased through Rain Protection.

Go to www.worldagexpo.com/exhibitors/#insurance to purchase insurance

Every exhibitor must provide IAC with proof of commercial general liability insurance coverage in the minimum amounts of \$1,000,000 per occurrence and \$2,000,000 annual aggregate. Such insurance must designate IAC and its officers, directors, agents and employees as additional insureds, and such designation must be shown on the proof of insurance provided to IAC. The proof of insurance must show that the subject policy begins no later than two weeks prior to the opening of World Ag Expo® and shall remain in place until at least one week following the closing of World Ag Expo®. The proof of insurance must also indicate that, should the policy be cancelled prior to its stated expiration date, notice must be provided to IAC in accordance with the policy provisions, but in any case, no less than fifteen (15) days prior to the effective date of cancellation. Exhibitor must provide IAC with the required proof of insurance by **October 31** of the year prior to World Ag Expo® or with the submission of the Request for Exhibit Space, whichever is later. Failure to provide such proof of insurance by such deadline may result, at IAC's sole and absolute discretion, in exhibitor losing the ability to exhibit at World Ag Expo® and will result in the imposition of the cancellation fee described herein. If exhibitor's policy is cancelled or terminates prior to World Ag Expo®, exhibitor must provide IAC with satisfactory proof of new or continued insurance within 15 days of such cancellation or termination, but in any event, no later than **January 15** prior to World Ag Expo®. Failure to provide such proof of new or renewed insurance in a timely manner, may, at the sole and absolute discretion of IAC, result in the loss of exhibitor's ability to exhibit at World Ag Expo® and in the imposition of the cancellation fee described herein.

IAC does not provide any form of insurance to cover exhibitor activities at World Ag Expo® and assumes no liability or responsibility for loss or damage to exhibitor due to fire, theft, breakage, vandalism or any other reason. IAC recommends the exhibitor maintain their own insurance to cover any such potential loss or damage. Exhibitor shall maintain any required workers' compensation insurance for its employees at World Ag Expo®.

BADGES

Badges are required to access the grounds starting **January 29, 2024**, no exceptions. Exhibitors are required to have submitted valid insurance for their booth, before they are provided badges. Orders placed after **December 15, 2023**, must be picked up at the International Agri-Center's Heritage Complex. Beginning **January 29, 2024**, badges must be picked up at the Exhibitor Registration Center (ERC)(Gate 6).

TEMPORARY WORKER PASSES

Unofficial contractors must obtain a temporary worker pass. There is no cost for temporary worker passes.

Prior to World Ag Expo®, temporary worker passes are available at the Exhibitor Registration Center (ERC) (Gate 6).

If an Appointed Contractor requires access during show days, the contractor or exhibitor is responsible for obtaining badges.

BOOTH STAFFING

Booth representatives are required to remain with their exhibits daily until the public has vacated the grounds. Exhibits **MUST** remain in place until **4:00 p.m. on Thursday, February 15, 2024**. Any exhibits removed before **4:00 p.m. on Thursday, February 15, 2024**, will be subject to the loss of booth space for the 2025 World Ag Expo®.

CANCELLATION POLICY

If written notice of cancellation is received before **December 1, 2023**, exhibitor shall forfeit 20% of total space fee and shall be entitled to an 80% maximum refund. Cancellation on **December 1, 2023**, and hereafter by exhibitor, shall result in forfeiture of the entire space fee. Canopies for in-line or perimeter booths should comply with line-of-sight requirements. The bottom of the canopy should not be lower than seven (7) feet from the floor and within five (5) feet of any aisle. Canopy supports should be no wider than three (3) inches. This applies to any booth configuration that has a line-of-sight restriction. A substantial amount of condensation can occur. You are encouraged to cover moisture-sensitive materials with plastic at night.

(See page 15)

DISTRIBUTION OF WRITTEN MATERIALS

Presentation and distribution of materials must remain within the boundary of exhibit space.

DISTURBANCE TO SPACE

Major disturbances to the exhibit space surface (trenching, footings, postholes, flagpoles, drilling or digging) are not permitted without obtaining prior written approval, on-site authorization from World Ag Expo® Management and paying the Disturbed Space Deposit. Dig permits may be obtained at any area office (on-site only). Minor disturbances to the exhibit space require returning the space to the condition in which it was found at Move-In.

FIRE CODE

California Fire Code requires all combustible decorative materials, including table covers and table skirting used in tents, canopies and assembly-type structures, to be flame resistant as determined by procedures set forth in the code. If the materials do not meet the minimum standards for flame-resistant properties as determined by the Tulare City Fire Department, you will be required to remove all material in violation. Exhibitors who are in need of approved materials for exhibit display purposes are advised to contact Diamond Rental at worldagexpo@diamondevent.com or 888.844.4001.

Please note:

A) Tents (either owned or rented) 400 sq ft. or more are required to have a California Approved fire extinguisher.

B) If your exhibit space is located next to any fire equipment, all fire equipment must be visible and accessible at all times.

HEALTH PERMIT

If you are giving away food samples, pre-packaged food, bottled water or other beverages, a health permit is required.* For questions regarding health permits, contact our office at 559.688.1030 or forms@farmshow.org. Signs should be made of lightweight vinyl or foam with grommets and attached to the top bar with an S-type hook; the end of the hook going over the bar must have an opening exceeding one and a half (1½) inches. No signage may be pinned to the drapes. Holes may not be created in the drapes. Contact waesales@farmshow.org for banner/sign information.

Please note: Signs and banners are not allowed on the fence line. If you would like your banner displayed on the fence line, please contact sponsorship@farmshow.org for more details. Signs and banners found on the fence line will be removed and held for the duration of the show.

HEATERS

It gets a little chilly in February! Please note the following restrictions on booth heaters:

Outdoor booths

Propane and electric heaters permitted. Patio style propane heaters are allowed in tents with open walls.

Indoor booths

Only electric heaters with a tip-over switch are permitted. You will need to order electricity to power your heater.

LIGHTING

No lighting, fixtures, trusses or overhead lighting are allowed outside exhibit boundaries. Lighting, including gobos, should be directed to the inner confines of the space. Lighting should not project onto other exhibits/aisles. Potentially harmful lighting, such as lasers or ultraviolet lighting, must be approved by World Ag Expo® Management. Lighting that spins, rotates, pulsates or has other specialized lighting effects should be in good taste and not interfere with neighboring exhibitors or otherwise detract from the general atmosphere of the event.

LINE OF SIGHT

Display materials must not obstruct neighboring exhibitors' line-of-sight. The maximum height is allowed only in the rear half of the booth space, with a four (4) foot height restriction imposed on all materials in the remaining space forward to the aisle.

LIVE ANIMALS

Obtain written approval from World Ag Expo® Management before the showing for any demonstrations, live entertainment or use of live animals.

MUSIC, NOISE AND VEHICLES

Noise from sound equipment in booths may not disrupt activities of neighboring exhibitors. Speakers and sound devices should be positioned to direct sound into the booth and not into the aisle.

Sound and noise should not exceed 85 decibels when measured from the aisle immediately in front of a booth. Be aware that music played in booths, whether live or recorded, may be subject to laws governing the use of copyrighted compositions. ASCAP, BMI and SESAC are authorized licensing organizations that collect copyright fees on behalf of composers and publishers of music.

Display vehicles may not be started or moved.

TOWERS

A tower is a free-standing exhibit component separate from the main exhibit fixture. The height restriction is the same as that which applies to the appropriate exhibit space configuration being used.

Maximum allowed dimensions are two (2) feet x two (2) feet diameter/width but may go to the maximum height allowed for buildings/pavilions. For questions about towers, contact Exhibit Sales at waesales@farmshow.org or 559.688.1030.
